## HEALTH HAZARD INFORMATION

|                      |                                                                                        |
|----------------------|----------------------------------------------------------------------------------------|
| Signal word:         | <b>Warning</b>                                                                         |
| Hazard statement(s): | <b>H229</b> Pressurised container: May burst if heated.                                |
|                      | <b>H319</b> Causes serious eye irritation.                                             |
|                      | <b>H361fd</b> Suspected of damaging fertility. Suspected of damaging the unborn child. |
|                      | <b>H402</b> Harmful to aquatic life.                                                   |
|                      | <b>AUH044</b> Risk of explosion if heated under confinement.                           |

## PRECAUTIONS FOR USE

|                             |                                                                                                                      |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------|
| Gloves:                     | 1.BUTYL 2.NEOPRENE 3.VITON                                                                                           |
| Respirator:                 | Type AX Filter of sufficient capacity. (AS/NZS 1716 & 1715, EN 143:2000 & 149:2001, ANSI Z88 or national equivalent) |
| Storage and Transportation: | Store in cool, dry, protected area. Keep out of reach of children. Keep away from heat.                              |
| Fire/Explosion Hazard:      | Toxic smoke/fumes in a fire. Risk of explosion if heated under confinement.                                          |
| Environment:                | Harmful to aquatic organisms.                                                                                        |

## PROPERTIES

Liquid. Gas. Mixes with water. Non-combustible.

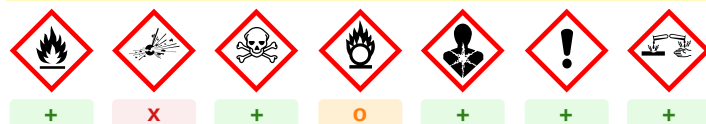

## EMERGENCY

## FIRST AID

|                      |                                                                                                                                                                                                    |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye:                 | Wash with running water (minimum 15 mins). Medical attention.                                                                                                                                      |
| Skin:                | Wash with soap & water. Apply cleansing cream.                                                                                                                                                     |
| Fire Fighting:       | Keep containers cool. Keep surrounding area cool. Water spray/fog.                                                                                                                                 |
| Spills and Disposal: | Absorb with dry agent. Stop leak if safe to do so. This material and its container must be disposed of in a safe way. To clean the floor and all objects contaminated by this material, use water. |

## SAFE STORAGE WITH OTHER CLASSIFIED CHEMICALS

- X — Must not be stored together  
 O — May be stored together with specific preventions  
 + — May be stored together

Note: Depending on other risk factors, compatibility assessment based on the table above may not be relevant to storage situations, particularly where large volumes of dangerous goods are stored and handled. Reference should be made to the Safety Data Sheets for each substance or article and risks assessed accordingly.
